StazOn Permanent Ink Pads

StazOn is a solvent-based inkpad, designed for decorating non-porous surfaces such as glass, metal, shrink plastic, cellophane, aluminum foil, leather and acrylic. Thanks to its mild smell, StazOn is much safer to use than other permanent inks. It's also much easier to use since there is no need to re-ink the pad before each use. Inkers are available to periodically rejuvenate dry edges. Use StazOn with Sponge Daubers and Fantastix applicators for easy sponging techniques! Pads are 2" x 3".
